Fat Bob Rear Fender Kit for FXR Models

A complete Fat Bob rear fender kit for all 1982-86 FXR models. The rebellious upswept kick of the chopper-style rear fender is combined with our smooth, chromed steel fender struts that not only improve styling but provide improved fender support over the original equipment parts. Accepts all of PCP's taillight kits with Fat Bob mounts, or the stock (OEM 59993-80) taillight bracket. This kit and its components are not compatible with original equipment or aftermarket sissy bars.

6024 Unpainted fender kit

Note: These fender struts are not designed for the standard original equipment fender, nor will this fender mount correctly to the standard fender struts.

Flip Rear Fender Kit for FXR

Combines the time-proven styling of the classic dresser rear fender with the latest rubber-mount motorcycles. This flip-up rear fender fits all FXR models from 1982-1986. The flowing lines of the fender are combined with special-design struts to smooth the rear styling and provide improved support. The fender and struts are sold as a kit—designed from the ground up as a combined, quality installation. This kit and its components are not compatible with original equipment or aftermarket sissy bars.

6023 Unpainted fender kit

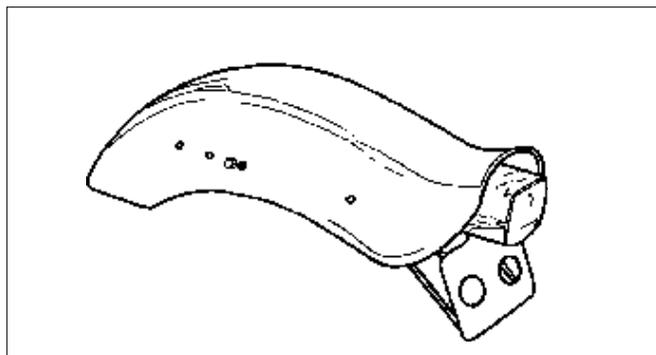

Note: These fender struts are not designed for the standard original equipment fender, nor will this fender mount correctly to the standard fender struts.
