H-4 Quartz Bulb

Halogen type fits 5-3/4 plus 7" units sold each.

PCP Wattage (L-H)

- 17007 60/55
- 17008 100/55
- 17004 60/55 (Heavy Duty)

Caution: Do not touch any halogen bulb with bare hands during installation or replacement. The manufacturer advises that the light unit not be washed with a water hose as it is not a sealed beam unit.

2003-on Taillamp Bulbs

Are push in wedge style.

- 17255 Stock (10 pack)
- 17256 LED (each)

12 Volt LED Bulbs

Lights are vibration resistant providing long life. Available for brake lamp or lolly pop shaped for taillamps.

PCP	OEM	Colour	Application
59237	1157	Amber	Brake
59238	1156	Amber	Turn signal
59239	1157	Red	Taillamp

XENON Boosted H-4 Bulb

Bluish H-4 bulbs offer superior night visibility. The xenon gas is used to cool the filament and allow the halogen process to produce a higher light output. The special blue coating increases the whiteness of the light with only a trace of blue.

- 28355 60/55W
- 28356 100/55W
- 28352 100/90W
- 28377 130/90W

Caution: Do not touch any halogen bulb with bare hands during installation or replacement. The manufacturer advises that the light unit not be washed with a water hose as it is not a sealed beam unit.

Rainbow Strobe Insert

Allows lamp to radiate a soft, coloured light to alert drivers. For H-4 halogen bulbs (not included).

28353 Each

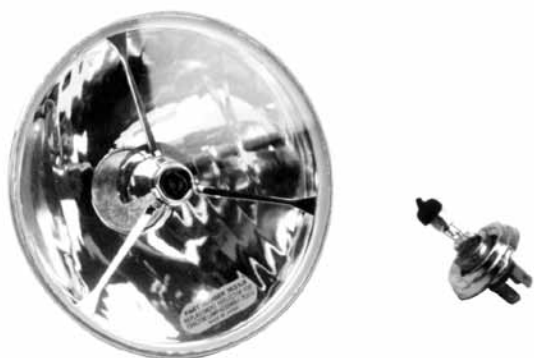

Red Brake 12 Volt LED Bulbs

Bulbs are not affected by vibration for long lift. Rotating type features LED's that rotate and reverse direction every two seconds and when brake light is activated the LED's pulse 2 times per second.

- 17041 1157
- 59048 1157 rotator

Sealed Beams

Tri-Bar Halogen Unit

Features early styling with a replaceable H-4 bulb, designed to fit into any existing 7" or 5-3/4" light assembly.

PCP# Description

- 56124** 7" beam with 60/55 bulb
- 17016** Bulb only for above 60/55 watt
- 56125** 5 3/4" beam with 60/55 bulb
- 17018** Bulb only for above 60/55 watt
- 56129** 4 1/2" spot lamp beam

H-4 Glass Headlight Assembly

Assembly features a dome shaped glass lens and includes a 55/60W bulb.

Sealed Beams

Round Seal Beams

Use on stock Sportster headlights, FX models, our custom K.D. highlights and others using 7" seal beams. Sold each.

PCP	Description
56104	5-3/4" 6 V (30/30w) (67717-59)
56108	5-3/4" 12V (30/30w) (67717-65)
56119	7" 6V (50/40w) (67717-48)
56109	7" 12V (65/40w) (67717-64)

Hi-Intensity Halogen Sealed Beams for Late Model Spot Lamps

These 4-1/2" clear non-fluted 12-volt halogen sealed beams have lots of candlepower to throw your way. The stock sealed beams are 22,000 candlepower and 30 watts with a beam spread of 12° horizontal and 7° vertical. These sealed beams are very bright.

56120	70,000 candlepower 37.5 watts - beam spread is 7° horizontal and 4° vertical
56121	110,000 candlepower 50 watts - beam spread is 7° horizontal and 5° vertical

Note: The installation of these sealed beams may cause an excessive drain on your charging system. Please check with a qualified mechanic beforehand. The use of these sealed beams may not be legal in your province, please check your local regulations before installing.

- 3101** Cap style
- 9871** Custom flat allens
- 9872** Button allen

License Plate Bracket

Chrome license plate bracket (mounting above taillight) as used on all Harley Sportster and Big Twin models 1955-up (except FXWG and FXST).

PCP Description

- 1814** Early 2 hole (59992-55A)
- 21710** As above, black finish
- 703** Late 3 hole (59983-75)
- 62020** Red reflector (each) (59988-72)
- 23017** Taillight bracket pad, prevents scratching of rear fender (68456-89) (5 pack)

Chrome License Plate Mounting Bracket Kit

One-piece chromed diecast license plate mount replacing the stamped sheet metal license plate mount and bracket on the rear fender. Rubber spacers cushion the license plate from vibration, and allows the mount to follow the profile of the fender, for a cleaner look. Mounts directly to the stock hole pattern on all HD rear fenders 1955-on (except FXWG and FXST).

- 3325** Complete with hardware

License Plate Reflectors

Reflectors measure 3/4" across the face and a 5/8" long stud with a tension spring and wing nut holds the plate firmly. Classic 50's styling.

- 28201** Blue (4 pack)
- 28202** Amber (4 pack)

License Plate

Chrome License Plate Frames

These chrome diecast license plate frame features embossed eagle with "Live to Ride" (with black background). Mounting holes measure 5-7/8" x 2-3/4" centre-to-centre. The rear of the frame is recessed to accept a license plate of up to approximately 7" x 5". Fits all models (except FXWG and FXST). 7-1/4" x 4-1/4" standard size.

T/L LED lighted License Plate Frame

Chrome frame features side LED slot lights that function as auxilliary running and brake lights and a top script running light. Frame is designed for plates measuring 4-1/8" x 7-1/4".

Fits 1989-on XL, 1991-on FXD (except FXDWG), 1986-on Softail (except FXST, FXSTC, FXSTB and FLSTS). FXSTD models require the additional purchase of a wiring adaptor #70316-03. Will not fit with layback license plate mounting kits OEM# 59817-00A or 59822-00. This plate does not provide sufficient plate illumination on other models not listed above.

62031 59030-03

Lenze Trim

Chrome 'Slotted' Turn Signal Trim Rings

These trim rings are made from chrome-plated stamped steel. They fit all OEM and aftermarket turn signals and look really nice when combined with jewelled blue dot lenses and taillight trim rings. Two versions offered, the early and late model flat lenses fitted to the turn signal assemblies on most FL models 1963-on. Sold in pairs.

28421 Late-style. Fits FXRD, FXRT, FLT, FLHT, FLHS and Heritage Softail® 1986-on (shown)

Chrome 'Slotted' Turn Signal Trim Rings

These trim rings are made from chrome-plated stamped steel and fit both OEM and aftermarket turn signals. They look great on plain lenses but look really nice when combined with jewelled blue dot lenses and taillight trim rings. Trim rings are easy to install and are available for most XL, FX and FXR models from 1973-on.

Sold in pairs.

28423 Late-style. Fits all Sportster®, FX and FXR models (except FXRT), FLST, FLSTF and FLSTN Fat Boy® and FXDB Dyna Glide™ models 1986-on

Smoked Turn Signal Lenze Kits

Includes translucent smoked lenze and amber turn signal bulbs which will show amber through lenze. Kits include 4 lenses and 4 amber bulbs.

28455	1986-on FLST, 2002-05 XL	Flat
28481	Amber bulb set only for above	

Chrome Turn Signal Grill

Louvered, chrome grill installs over the front or rear turn signal lenze on FLT, FLHS, FLHR 1986-on. Sold in pairs.

50027

Turn Signals

Badlands Load Equalizer 3

This solid state, waterproof unit is specially designed for use with Harley-Davidson models equipped with the TSSM Security/Alarm module or the TSM turn signal module. This unit is also compatible with most custom turn signals. This unit allows the use of 4 way flashers for any amount of time and will allow the security system to properly operate. Works with Halogen or LED signals and eliminates erratic blinking of signals.

- 28473** 1988-96 FLH, 1991-95 FXST, 1994-96 Dyna, 1991-98 XL (Badlands)
- 21821** As above, Volt-tech
- 21857** 1997-on FLH, 1996-on FXST, 1997-on Dyna, 1999-03 XL (Badlands)
- 21858** 2004-on XL (Badlands)

Badlands Illuminator

Convert your rear turn signals or marker lights into additional brake lights to increase your visibility. The illuminator maintains turn signal function and has a built-in load equalizer that works with stock or the smallest custom marker lights.

PCP Application

- 28472** 1973-96 All FL, FX, 1973-98 XL and custom wiring
- 28478** 1985-94 FXST, FXR, FXD, 1985-96 FLT, 1986-98 XL
- 28479** 1997-on FXST, FXD, 1997-on FLT, 1999-03 XL
- 28480** 2004-on XL

Badlands Turn Signal Load Equalizer II

This updated unit performs the same functions of the standard unit but also allows for emergency flasher functioning. Fits Big Twin and XL 1991-99 with custom turn signals installed.

- 28471** 1991-99
- *Use Load Equalizer III on 2000-on

Illuminator Pro Model

This module control features automatic cancelling of signals, front running lights, rear running lights, brake light function, and front and rear turn signals on single filament halogen, incandescent or LED bulbs. Includes a built-in load equalizer that runs LEDs up to 70 watts per lamp and an emergency flasher mode that does not build up heat.

28477

Turn Signal Load Equalizer (U.S.A.)

Badlands Motorcycle Products

This electronic unit will correct amperage draw on 1991-on models with self cancelling turn signals allowing the use of custom marker lights. This unit will work on most pre 1991 models also but is necessary on 1991-on. Includes hardware and instructions.

28465

Automatic Turn Signal Shut-Off for 1973-90 Badlands Motorcycle Products (U.S.A.)

This unit allows the turn signals to activate at the touch of a button. Signal will flash for approximately 7 seconds and then automatically shut off; if more signal time is required simply re-touch signal button again.

28105 Kit

Turn Signals

Badlands Plug-In Automatic Signal Canceller

Turn signal cancelling module is available with 3 different plug-in styles to fit most commonly used models. Use this module to replace a broken OEM module or when installing a custom speedo or gas tank. Module can be manually cancelled at any time but, automatically cancels signal after 9 seconds of flashing. Offers a built-in solid state flasher for emergency flasher mode and a built-in load equalizer that runs LED's up to a 100 watts each side. Measures 2-7/8" L x 1-3/8" W x 7/8" D.

PCP Application

28474 10 pin (1987-93 models)

28475 8 pin deutsch (1994-10 models)

28476** 12 pin deutsch (1994-10 models)

**Tech note: Newer factory bikes run the ignition circuit thru the 12 pin security & self cancelling modules. Consult your service manual schematic, to make sure your model does not include this circuit. You can not use this 12 pin module if your security or self cancelling module includes this circuit

Intensifier Hi-Low Modules

Convert single function LED, halogen or incandescent bulbs to dual function.

PCP Application

21859 Single input/single output will run single or multiple driving lights for high & low, single or multiple marker lights for run & stop. Also can use for run&turn on a pair of turn signals if two units are used. Will run up to 50Watts total for driving lights.

21860 Dual inputs/dual output will do run&stop, high&low. Also can use for run&turn for a pair of turn signals with one module. Runs up to 100Watts total for driving lights.

Turn Signal Control Unit

Turn signal self-cancelling control unit replaces stock unit

4974	Two filament bulb only (68168-89) (10 pack)
4968	One filament bulb only (68572-64B) (10 pack)
28421	Slotted chrome trim rings (pair)

Note: Stock signal units are double filament front and single rear, to use double on rear use bright element only.

Complete Turn Signal Kits

To make it easier for those of you who are builders, we've gathered together all of the turn signal components you'll need under two versions. Both versions include the identical clamps and support hardware necessary to mount the turn signal housings to your handlebars and fender struts. Lamp units are the only difference. One version features late-model (1986-99) housings and amber lenses and dual-filament bulbs for the front and rear, and the other version features early-model (1973-85) housings with amber lenses and single-filament bulbs.

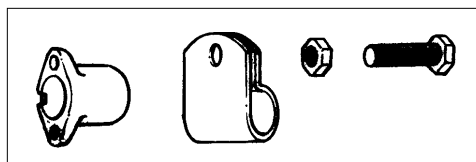

- 6541** Kit with early lamp units and single-filament bulbs 1973-85
- 6540** Kit with late lamp units and dual-filament bulbs 1986-99 FX-FXR-Sportster models. Can also be used to upgrade 1973-85

Late FL Turn Signal Kit 1986-on

Complete 12V turn signal kit with front signal standoffs and 2 extra red lenses.

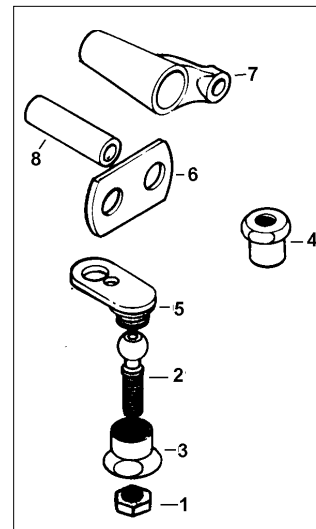

- 28811** With 2 single and 2 dual wire lights
- 28812** With 4 dual wire lights

FLH Turn Lamp Mounting Kit

Chrome light mounting kit for 1968-on turn signal lights complete with chrome base, clamp and mounting bolt. Necessary for mounting turn signal below spot lamp unit.

- 1275** Kit (68518-68)
- 44008** Clamps only (pair)
- 44031** Stand-off only (68519-68)

Turn Signal Brackets

Mount signals closer to bike, fit 39mm forks, on 1987-on Sportster and FXR and 1991-95 Dyna, by bolting to top tree using stock hardware. Sold in pairs.

- 28310** Chrome
